Professional Summary

Computer Science Engineering undergraduate specializing in full-stack web development with hands-on experience in building responsive, secure, and scalable applications using React.js, Node.js, REST APIs, and databases. Strong foundation in Data Structures, OOP, and software engineering principles. Seeking Web Developer / Full-Stack Internship opportunities to contribute to real-world projects.

Skills :

Languages: Java, Python, C, C++
Web Technologies: HTML5, CSS3, JavaScript, ReactJS, Node.js
Databases: MySQL, MongoDB
Tools: Git, GitHub, VS Code
Concepts: REST APIs, Authentication, Basic ML & NLP

Internships / Training

1. **Full Stack Web Development Certification – Udemy**
2. Completed an industry-oriented Full Stack Web Development certification covering both **front-end and back-end development**.

Tools & Technologies used:

Front-end: HTML5, CSS3, JavaScript, Bootstrap
Back-end: Node.js
Database: MySQL / MongoDB
Version Control: Git & GitHub

Projects

Working on a Secure Rental Platform.

- Developed a full-stack rental platform using **ReactJS** and **Node.js**
- Implemented **secure user authentication** with **role-based access control**
- Built features for **property listing, search, and rental requests**
- Enhanced user experience through a **responsive UI** and **secure RESTful APIs**

Made a website on Fake News Detection Using ML.

- Developed a web application to detect fake news using **Machine Learning** and **NLP techniques**
- Trained a text classification model on **labeled news datasets**
- Integrated the ML model with the backend to enable **real-time predictions**
- Designed a **user-friendly interface** for news input and result visualization

Education

Bachelor of Technology (B.Tech) in Computer Science Engineering Sharda University, Greater Noida
